

## Community Projects

It has been another lively year for community projects. A season of wrangling weeds at the Ronald McDonald House. Special thanks to the crew of ladies that constantly come to help every other Tuesday. We are still hoping to add in some native Trees and extra plants at this location!

Thank you to Mara Grant, Nancy Reese , Pam Biddle, Kate Hackett for making the entrance at RMCD Look Cheery.

AND....

As my grandmother used to say."Many Hands make light work".... so we would love any extra hands that are willing to help.

The Kentmere bedside arrangements during the December Holidays were a great success with almost full participation this year. Thanks **ALL** so very much.

We will continue to hand out recycled and up-cycled containers to help implement this perfect turn out for Kentmere.

Thanks to the organization of Katharine Maroney Community Projects participated in creating The Wreaths for Hospice. Thank you Mara and Katharine each for making them.

The garden club took on a new project last July at the Marian Coffin Garden is at Gibraltar. An enthusiastic group of volunteers met there through November to weed, prune and maintain the garden. We restarted this effort in March, and will meet every other week through the fall. We hope to also be involved in decisions, regarding conservation of the sculptures and architectural elements in the garden and restoring the beds to their original design.

Hope to see you in the Gardens this summer. The Calendar and times are on the GCW Calendar.

Respectfully Submitted  
Anna Biggs
