

GCW 2022- 2023 Floral Design Report

This year proved to be a fulfilling year for Floral Design.

The Fall show at Pam Biddle's home, was stunning. We showcased an impressive collection of member's creative talents. Thank you Pam for being so gracious!

The Spring show at Vicmead was another testament to our innovative members. Many newer members entered and we encourage more of you next year.

The Flower Show committee was a great support to our success with both shows.

We also offer that anyone looking for Flower Show guidance to contact one of our "seasoned" designers - we're here to share and learn from each other.

Wendy Russell's Amaryllis Demonstration at Vicmead, Leslie Bottaro's Greens Workshop at DCH and TJ McGrath's Flower Design Seminar at Winterthur were stimulating and inspiring! We hope to hold more workshops next year that would offer instruction in a variety of designs.

Many thanks to this hardworking Floral Design committee and their input on next year's schedule. We look forward to lots of participation.

Thank you to my Assistant Chair, Barbara Cairns and to Wendy Russell who continuously informs us on floral design information and events.

Cheers to a great, flower- filled next season!
