

Even in the midst of the pandemic the FD committee in conjunction with the flower show committee created wonderful floral design schedules for the fall and spring flower shows.

Even though we did not hold any club floral design workshops, we were kept well informed about the many online workshops on our website on floral design, including courses from Longwood Gardens and Mt Cuba (among others) as well as YouTube videos from Hitome Gillam and other top designers. There were some great books listed under the Quarantine Reads section as well. We were also able to attend virtually the new one day GCA Floral Design Conference. A big hats off to wendy Russell and Kelly Asplundh, zone V FD representative, for providing this information to us on a regular basis.

I'm looking forward to our up coming flower shows and encourage members to participate! Thank you.

Respectively submitted, Mara Grant
